Residents within 1,000 Feet of 16595 Road 168

Re: Public Notification Requirement of California Health and Safety Code §42301.6
Project Number: S-1210075
Project Description: Installation of a gasoline dispensing operation

Dear Parents/Residents:

The San Joaquin Valley Air Pollution Control District (Air District) has received an application from Lower Tule River Irrigation District at 16595 Road 168 in Woodville, CA for the following project:

Installation of a gasoline dispensing operation with one aboveground storage tank, 1 dispensing nozzles, and state approved vapor recovery systems

Since this project is located within 1,000 feet of the outer bounds of a school site, the California Health & Safety Code §42301.6 requires that you be given this notification and an opportunity to comment on the project before permits are issued.

The Air District has determined that, as proposed, the installation will comply with all Air District regulations. The Air District's analysis of the proposal has determined that the emissions from operation of this equipment will not pose a significant health risk to the school children or to the surrounding public.

Should you have any questions or comments about this project, please submit them in writing within 30 days of the date of this notice to the following:
